Total freight traffic in May grew by 7.8% thanks to the boost in solid and liquid bulk cargo

Containers full of cargo (export) grew slightly by 0.55% and broke the negative trend of recent months and those full of unloading (import) increased by 14.75%. On the other hand, transit full containers fell by 7.4%

In the year-to-date (January-May), the economic situation still shows a negative result both in total freight traffic with a decrease of 1.34% and TEUs with a drop of 6.31%

During this time, 246,362 units of automobiles were mobilised under the goods regime, a 6.2% increase

In year-on-year terms (June 2021 compared to May 2022), containers dedicated to foreign trade exceeded 1,037,000 units with a slight decrease of 0.53%, while import containers grew by 15% to over 865,000 units

The biggest fall in year-on-year terms was in transit full container loads with a decrease of 9.91% (260,000 fewer containers), due to diversion to other destinations due to peaks of congestion in the Port of Valencia

By sectors, all those dedicated to exports fell, while imports of natural gas tripled compared to the first five months of 2021

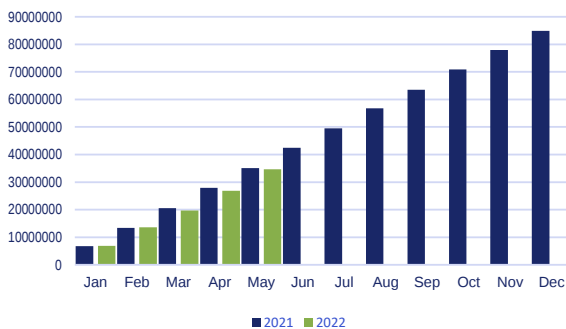

By countries, the United States and Italy lead total goods traffic, with increases of 22.36% and 4.22% respectively. By containers, China continues to be the main partner despite falling by 7.43%
