The volume of unloading TEUs (import) handled by Valenciaport in May grew by 2.36%

The slowdown in international trade is reflected both in the general decline in traffic at Valenciaport's docks and in that of the main world ports, but for the second time this year there is a sign of recovery in import traffic and in the moderation of the main indicators

The good performance of cruise tourism is confirmed, which this month has grown again in the Port of València and has added 151,855 passengers, an increase of 60.37% compared to the figures of a year ago

Rail transport continues on an upward trend and during the first five months of this year a total of 95,470 TEUs entered and left the Valencian docks by rail: 1,375,558 tons were moved, up 12.56%

By type of material transported, the traffic of automobiles and their parts has grown from January to May by 18.54% to reach 879,552 tons (+137,583). Along these lines, almost 15,300 more vehicles have been moved in 2023 than in the same period last year, an increase of 6.19%

The sector with the highest increase in activity is fertilizers (+14.72%) followed by vehicles and transport elements (+0.63)

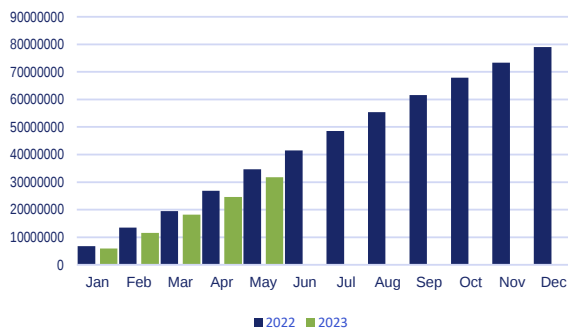

China is Valenciaport's main trading partner, closely followed by the United States; however, the countries that have grown the most in their traffic with Valencia were Egypt (+22.09%), India (18.12%) and the United Arab Emirates (+17.12%)
