Valenciaport closes the year half a point above the Spanish Port System with a decrease in traffic of 2.81%

The Statistical Bulletin of the Port Authority of València (PAV) for 2023 reflect this: 76,746,424 tonnes of goods entered and left the Valencian docks last year. Although this figure represents a decrease of -2.81% with respect to 2022, the decline is below the average for Spanish ports which is -3.3%

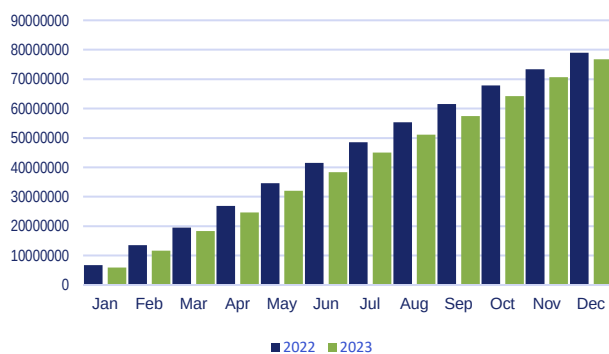

An upward trend in container traffic has been detected in the last quarter. A positive evolution that began in October 2023 and continues to this day, driven by transit traffic (derived from the crisis of the conflict in the Red Sea)
