Data from the Statistical Bulletin of the Port Authority of València (PAV) show that China is once again the main trading partner of Valenciaport with 702,633 containers handled in 2024, followed by the USA with which 368,298 TEU's have been exchanged. Between them, they account for 1/3 of the traffic of the Valencian docks

The figures of the Bulletin have been provided to the members of the Board of Directors of the PAV this morning in its first meeting of the year which has been held in the Clock Building where the typology of the traffics with these two powers has been described and a global balance of the year 2024 has been made

If we focus on exports, the main goods traded with China are foodstuffs, automobiles and their parts, wines and beverages, while what arrives in Valencia from the Asian continent are machinery, tools and construction materials

Meanwhile, with the USA, the predominant cargo traffics are construction materials, machinery, tools and foodstuffs. And the products arriving from North America are paper, fresh produce and chemicals

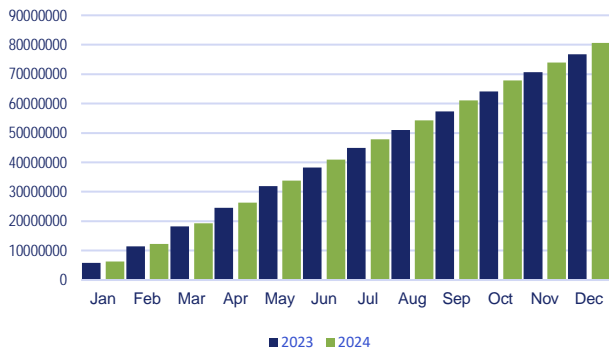

Data from the Statistical Bulletin of the Port Authority of València for 2024 show that a total of 80,666,175 tonnes of goods have entered and left the Valencian docks, 5.11% more than in 2023. The number of containers has also grown, reaching 5,475,773 TEU's (+14.15%)
