The Statistical Bulletin of Valenciaport shows that 7.27% of the total amount of goods that leave or enter the Valencian docks already do it by train. If the figures are compared with those of the first quarter of 2024, there is an increase of +11.85% in the number of TEU’s – a total of 60,430 containers have been handled this year by rail-

For the Port Authority, the collaboration between all the operators involved in the rail chain has been decisive in achieving these positive figures

Ro-Ro traffic (maritime services for roll-on/roll-off cargo, lorries or platforms, among others) increased by +1.81% in the first three months of the year, while ITUs (Intermodal Transport Units) increased by +3.87%

China and the USA remain Valenciaport’s main trading partners, with the sum of traffic with both countries representing 285,064 TEU’s exchanged in the first quarter of the year

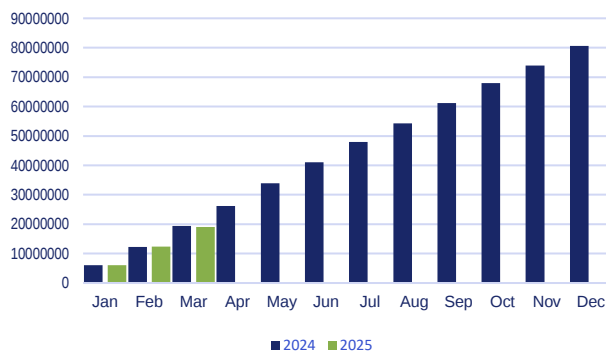

Exports (containers full of cargo leaving the Valencian docks) have grown by +7.32% so far this year and imports (full containers arriving) have grown by +19.25%
