

Valenciaport organises

Valencia 2018

GREENPORT

Cruise & Congress

ENVIRONMENTAL
TIPS

#77

From the 16th to the 19th of October,
the congress will offer a new opportunity to share knowledge and experience.

At the conferences the latest trends in sustainable development and good environmental practices will be discussed.

The talks will cover topics such as climate change, air quality, energy consumption and carbon footprint.

The Port Authority of Valencia works in conjunction with the port community with the aim of reducing greenhouse gas emissions as much as possible.
