European LNG stakeholders to debate at the LNG Transport Forum

LNG Transport Forum: European LNG market integration – the platform of communication within the LNG sector in Europe – organized by Actia Forum in cooperation with the Port Authority of Valencia and the Valenciaport Foundation - will be held on 14-16 October 2015. The 2-day event will bring together high-class speakers, project representatives, business and other market players, as well as market analysts, delegates and key representatives from the European transport market.

This year LNG Transport Forum agenda covers issues regarding LNG applicability in emission controlled areas, LNG synergy possibilities and innovation in ports. Key industry representatives will gather in Europe's fifth busiest seaport modern facility to debate on the current topics and challenges for the industry to meet. This first edition of the LNG Transport Forum will be neatly reported, summarized and distributed among the European and world LNG representatives.

The LNG Transport Forum is a must-attend event for anyone who is, or wants to be, connected to European LNG industry. The forum will gather **SeaTerminal, LNG in Baltic Sea Ports and LNG Master Plan** projects, as well as newly granted TEN-T & CEF projects including **Poseidon Med, HEKLA, GAIN4MOSS.**

Klaipedos Nafta, Pro Danube, Noatum Ports, Port of Stockholm, Port of Helsingborg, BPO, Valenciaport Foundation and many more key European stakeholders will raise their voice to promote the EU market integration. The invited speakers and panelists are at the top of the LNG field.
