

2 February

World Wetlands Day

ENVIRONMENTAL
ADVICE

#105

Did you know that...?

The municipality of **SAGUNTO** is home to one of the most important wetlands in the Region of Valencia, **THE MARJAL DELS MOROS**.

An extensive natural area, it has been declared a **LUGAR DE INTERÉS SITE OF COMMUNITY IMPORTANCE (SCI)** and a **SPECIAL PROTECTION AREA FOR BIRDS (SPAB)** by the Regional Ministry of Agriculture, Rural Development, the Climate Emergency and the Ecological Transition, as home, through the year, to a great biodiversity of flora and fauna, and even species in danger of extinction who use the area as a breeding ground.

“Wetlands are a key ally in the fight against climate change”
