## 2. Import

Tariff approved by the APV Board of Directors on 24/07/07 and modified by the Board of Directors on 12/11/07.  
Approval of the maximum tariffs for area occupancy in the Container Terminal.

PERIOD	TEU (EUROS / DAY)
First 4 days	0.00
For days 5 to 7	1.57
For days 8 to 18	3.14
For days 19 to 30	10.00
More than 30 days	30.00

Tariffs will be applicable from 1 January 2008

The approved maximum tariffs, which must be applied by the terminals, will apply to all containers present in the terminal on the day of the date of entry into force of the tariffs, regardless of the date of entry of the container into the terminal.

Abandoned import containers will be charged a maximum rate of €2.00/TEU/day from the date of their entry into the port, provided that the corresponding "declaration of abandonment" is obtained for them. For this purpose, the terminal must be notified of the initiation of abandonment proceedings by the customs administration for this tariff to be applied

Consequently, if a container does not ultimately achieve this status and during the documentary procedure of abandonment of the goods, the goods are released for consumption, the normal tariff will be applied from the date of entry of the container at the terminal. Likewise, when the container is declared abandoned, invoicing will be applied from the date of entry into the port.
